IAG™

Why you may need IAG™: Arabinogalactan is a unique polysaccharide from the cell wall of several different plants, but it is especially prevalent in the inner bark of the larch tree (a variety of pine tree). It has long been noted for its use as an effective prebiotic and dietary fiber, but more and more studies are showing that it deserves mention for its ability to promote the health of the immune system. It has been demonstrated to have immune modulating effects and it also stimulates natural killer (NK) cell activity, which has been linked in medical literature to be physiologically decreased in a number of chronic conditions, particularly those of viral or autoimmune natures. Pediatricians frequently recommend arabinogalactans to provide targeted dietary support for children who have frequent episodes of otitis media.

Why your healthcare practitioner recommends IAG™ from Biotics Research: Despite the fact that it is derived from trees, **IAG™** is a mild, slightly sweet tasting powder. It readily dissolves into water or juice and is a convenient choice for a wide variety of people, including young children and seniors who may be prohibited from taking pills or immune supportive herbal formulas. In fact, **IAG™** is so palatable, that if a child doesn't see it being mixed into their juice – they usually won't be able to detect its presence. Each bottle of **IAG™** from Biotics Research Corporation contains 50 servings of arabinogalactans, making it both convenient and economical. Once again, Biotics Research Corporation brings you "The Best of Science and Nature."

Supplement Facts

Serving Size: 1 Teaspoon (approx. 2 g)
Servings Per Container: 50

† Daily Value not established

*Percent Daily Values based on a 2,000 calorie diet

Ingredients: Arabinogalactans

This product is gluten and dairy free.

IAG™ supplies Arabinogalactans - long, densely branched, high-molecular weight polysaccharides, derived from Larch trees.

RECOMMENDATION: Mix one (1) teaspoon into six (6) to eight (8) fluid ounces of water or beverage of choice, as a dietary supplement or as otherwise directed by a healthcare professional.

IAG™ mixes readily with water or juice.

KEEP OUT OF REACH OF CHILDREN

Store in a cool, dry area.

Sealed with an imprinted safety seal for your protection.

Product # 6630 Rev. 02/13
