

7-Keto-Zyme™

Dietary Supplement

For Healthcare Professionals Only

7-Keto-Zyme™ supplies 3 β -Acetoxysteroid-5-en-7,17-dione (also referred to as 7-oxo-DHEA Acetate), a naturally occurring DHEA metabolite. Structurally, 7-oxo-DHEA Acetate is almost identical to DHEA, however, the activity has been reported to be up to 2.5 times greater. There is another important difference.

7-oxo-DHEA Acetate is not converted to sex hormones – thus it will not convert to testosterone or estrogen.

Studies performed by Lardy and associates at the University of Wisconsin, have shown that supplementation with 7-oxo-DHEA Acetate increased IL-2 in human lymphocytes, enhanced memory, and increased thermogenic liver enzymes.

7-Keto-Zyme™ is available in bottles of 120 tablets

Supplement Facts

Serving Size: 1 Tablet

	Amount Per Serving	% Daily Values
3 β -Acetoxysteroid-5-en-7, 17-dione (7-oxo-DHEA Acetate)	5 mg	*
Superoxide dismutase (vegetable culture †)	30 mcg	*
Catalase (vegetable culture †)	30 mcg	*

*Daily Value not established

Product # 7833

Other ingredients: Cellulose, stearic acid (vegetable source) and magnesium stearate (vegetable source).

† Specially grown, biologically active containing naturally associated and/or organically bound phytochemicals including polyphenolic compounds with superoxide dismutase and catalase dehydrated at low temperature to preserve associated enzyme factors.

7-Keto-Zyme™ supplies the 7-Keto™ metabolite of DHEA. 7-Keto™ is a trademark of Humanetics Corporation.

RECOMMENDATION: One (1) tablet each day as a dietary supplement or as otherwise directed by a healthcare professional.

KEEP OUT OF REACH OF CHILDREN

Store in a cool, dry area.
Sealed with an imprinted safety seal for your protection.
